Sat, Feb 20, 2021, 8:30 AM

Dear Mr. Ahmat Adil,

We are pleased to receive your manuscript for possible publication in ICIC Express Letters (ICIC-EL).

Reference No.: ICICEL-2102-021

Title: AN INTERACTIVE MOBILE AUGMENTED REALITY SYSTEM FOR LEARNING HUMAN VISION STRUCTURE

Author(s): Ahmat Adil, Samsul Hadi and Bambang Krismono Triwijoyo

The above number "ICICEL-2102-021" has been assigned to your paper. The review result will be sent to you in due time (about two months).

ICIC-EL policy presupposes that the manuscript you have submitted has not been published, is not scheduled to be published, and indeed is not currently under review for publication elsewhere. If this is not the case, please notify this office immediately.

Please remember in any future correspondence regarding this article to always include its manuscript number "ICICEL-2102-021".

Many thanks for submitting your manuscript to ICIC-EL.

Kind Regards,

Dr. Yan SHI

Editor-in-Chief, ICIC-EL

Professor, Center for Liberal Arts, Tokai University

9-1-1, Toroku, Kumamoto 862-8652, Japan

Tel.: 81-96-386-2666, Fax: 81-96-386-2666

E-mail: office@icicel.org

Dear Mr. Ahmat Adil,

It is my great pleasure to inform you that your contribution to ICIC Express Letters,

Reference No.: ICICEL-2102-021

Title: AN INTERACTIVE MOBILE AUGMENTED REALITY SYSTEM FOR LEARNING HUMAN VISION STRUCTURE

Author(s): Ahmat Adil, Samsul Hadi and Bambang Krismono Triwijoyo

has been accepted for the publication with the following conditions. Also, please use the ICIC-EL style files <http://www.icicel.org/ell/information.html> (either LaTeX source files, or Word with PDF files) for preparing your paper (no more than 8 pages) for the publication.

The paper is generally well written and organized. The results presented in the paper seem correct, and potentially useful in practice. The techniques employed to tackle the problems are generally standard with some novelties. The paper can be accepted for publication subject to some necessary minor changes as below:

Comments:

- 1) After literature in Introduction, there is no discussion to state what contributions this study will provide compared with existing research and what motivates the current research.
- 2) In Section 2, authors should more specifically describe the methodology used for learning human vision structure by augmented reality system. For example, it is hard to understand “study literature” part in Section 2.1.3.
- 3) It is improper that only one subsection of 2.1 exists in Section 2. It is suggested to change “2. Methodology” as “2. System Design” and “Section 2.1.1~2.1.6” to “Section 2.1~2.6” and delete “2.1. System Design”.
- 4) In Section 3, the experiment setting should be more clarified. Based on Section 2, there are 6 stages for this method, so, among the 6 stages, which stage do “Modeling stage”, “UV mapping stage”, “Animation Making Stage” and “Marker Making Stage”

belong to?

5) There lacks the experimental results discussion. How to prove the proposed system?

6) Conclusion is not proper, in which what has achieved through this study should be emphasized, instead of providing the experimental results for the first time.

7) How authors conclude that "...with an acceptance rate of 85.01%" in the end of Abstract is not stated clearly in the manuscript.

8) The possible future research direction is suggested to be pointed out in Conclusion.

9) The language presentation of this manuscript is not satisfying with lots of grammar errors. For example, the last sentence in Abstract is ill-formed. The statement in Lines 5-7 on Page 2 is only a sentence slice.

10) Most references are out of date, which cannot well support this study.

11) The following study is suggested to be cited to enrich this research: "Perceptive Augmented Reality-Based Interface for Robot Task Planning and Visualization" by Ahmed Eslam Solyman, Khaled Mohamed Ibrahim, Mostafa Rostom Atia, Hassan Ibrahim Saleh and Magdy Raouf Roman, in International Journal of Innovative Computing, Information and Control, vol.16, no.5, pp.1769-1785, 2020, DOI: 10.24507/ijicic.16.05.1769.

Please note that if the paper is not revised satisfactorily complying with the conditions above, ICIC-EL reserves the right to reject the paper from the journal.

Please submit your Final Version, Revision Note, the Publication Page Charges and Copyright Form (<http://www.icicel.org/ell/information.html>) to us within Three Weeks' Time (from the date of this message) at our online submission system <http://www.icicel.org>. Thank you for your understanding and cooperation.

ICIC-EL has been indexed in Scopus (Elsevier), and INSPEC (IET). We would like you to refer to ICIC-EL publications especially your own works in your future research. We believe it will help you promote your article and enhance its visibility.

Please feel free to contact me if you have any questions about your paper.

Best Regards,

Dr. Yan SHI

Dear Mr. Ahmat Adil,

I am glad to inform you that your accepted paper (ICICEL-2102-021) has been edited for the publications in ICIC Express Letters (ICIC-EL). It is extremely important that you go over the galley proof very carefully for errors and any necessary changes such as updating status of papers in the reference (volume, issue, page numbers, year). At this

stage, only minor changes can be accepted, and any changes should be marked in the PDF file (ICICEL-2102-021(edit)) that you downloaded from the online submission system (<http://www.icicel.org>). Proof must be received within Three Days from the date of this letter. You should also upload the edited PDF file to the submission system even if there is no change needed.

If we do not hear from you within Three Days or your paper proof is not proper, your paper may not be published as scheduled.

Thanks for your cooperation.

Best Regards,
Dr. Yan SHI
