Dear
Jeffery Daniels
Editorial Office
Journal of Computer Science

Thank you for your email regarding my article # 6525-JCS.

I hereby respectfully inform you that I have made a revision for the second round of my article and have revised it according to the reviewers' suggestions and have also answered every point of suggestion from 4 reviewers.

I have uploaded a revision file and a list of revisions that I have done to the Journal of Computer Science system (as attached screenshot). After that, I no longer received email instructions for the third round of revisions.

In this email, I also attach four documents; two document files show the narrative of the changes I have made, the point by point from the comments of 4 reviewers, to make it easier to check the revisions I have made according to the instructions of the reviewers. Hopefully, the files I've included are useful.

I ask for further instructions from you if something is missing, and I still have to work on it.

Thank you very much for your kind attention and kindness.

I look forward to getting further information.

Sincerely yours
Anthony Anggrawan
